Designers, Engineers and Manufacturers of
New Transportable and Custom Modular Buildings

www.modularbuilding.com.au

Modular Building Systems Pty Ltd (MBS) supply the mining industry with durable quality infrastructure products necessary to support, over long sustainable periods of time the requirements of the industry.

At MBS we offer an extensive range of architectural and structurally engineered modular buildings that provide all the necessary services, design, manufacturing and installation needs of a remote workforce or mining project.

MBS supply an extensive range of buildings such as, but not limited to:

- Laboratories
- Plant Sites
- Ablutions
- Office Complexes
- Crib Rooms
- Mining Village Accommodation
- Individual Facility Unit Applications
- Site Workshop
- Bath Houses
- Data / Accommodation Centres

Buildings are designed and manufactured to your specification by our qualified team of skilled Professionals and then independently certified by an accredited Engineer. MBS work with you in designing and manufacturing the ideal accommodation / office solutions to enable your staff to work in comfort, though they be remotely located.

Visit our website for more information regarding the features and benefits of using MBS products and Services
